EDUCATION

Raj Kumar Goel Institute of Technology Ghaziabad, (U.P.)

2020 – 2024

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.6

PERSONAL PROJECTS

Super Application Website - (React.js, Javascript, Html, Css)

- Developed a comprehensive platform, the “Super App,” using React.js, enabling users to sign up, choose their favourite genres, and access a personalized dashboard. Integrated APIs to provide real-time weather updates and news, enhancing the application’s functionality and user engagement.
- Implemented local storage to save user preferences and data, ensuring a seamless and personalized user experience across sessions.

Rock-Paper-Scissor Game – (Html, Css, Javascript)

- Created an interactive and engaging web-based game with dynamic graphics and responsive design.
- Implemented game logic to randomly generate the computer’s choice and accurately determine the game outcome, ensuring fair play.

Zomato Clone – (Html, Css)

- Developed a static front-end clone of the Zomato website using HTML and CSS, replicating the visual design and layout to closely resemble the original site.
- Key features include a responsive homepage, navigation bar, search functionality, restaurant listings, and footer sections.

SKILLS

- **Programming Languages:** JavaScript, HTML, CSS.
- **Tools & Platforms:** Git, Vs Code.
- **Frameworks & Libraries:** React.js, Node.js.

ACHIEVEMENTS

- **Review Paper-** (02/2022 - 07/2022)
Authored Review Paper on “Indian Startup Ecosystem”: Conducted extensive research and analysis on the Indian startup landscape, covering trends, challenges, and opportunities.
- **College Technical Team-** (10/2021 – 10/2023)
Contributed to technical initiatives within the college.

INTEREST

- Finance
- Online Gaming
- Stock Market(Equity and Derivative)
