OBJECTIVE

Data Analyst with a passion for leveraging data-driven insights to optimize lending product offerings and drive operational improvements Proficient in Python, Machine Learning Power BI and Excel. Seeking to contribute my skills to the dynamic environment and help shape data-powered decision-making processes.

EDUCATION

B.Tech(CSE with Data Science)

Noida Institute of Engineering and Technology, Greater Noida
8.37 SGPA

2021 – 2024
Greater Noida

Diploma(CSE)

Accurate Institute of Polytechnic, Greater Noida
82%

2018 – 2021
Greater Noida

PROFESSIONAL EXPERIENCE

Python Intern at Intern'spedia

- Developed a Python application for "Guess the Number" game as part of an internship project.
- Implemented a random number generator within a user-defined range to simulate the game's objective.
- Implemented a random number generator within a user-defined range to simulate the game's objective.

10/2022 – 11/2022
Remote

Web Development Intern at Let's Grow More

- Developed multiple web projects using HTML, CSS, and JavaScript during internship.
- Gained experience in ensuring website responsiveness across various devices.
- Implemented design concepts to enhance user experience and interface aesthetics.

09/2021 – 10/2021
Remote

SKILLS & ADDITIONALS

Technical Skills:

Python, C++, Machine Learning, MS Excel, Power BI, Tableau, SQL

Fundamentals:

OOPS, Problem Solving, DBMS

IDE:

Jupyter Notebook, Google Colab, Github, Visual Studio

PROJECTS

Exploratory Data Analytics on Terrorism

- Conducted exploratory data analysis (EDA) on terrorism datasets to identify patterns, trends, and insights.
- Utilized statistical techniques and data visualization tools (Matplotlib) to analyze and present findings effectively.
- Investigated factors contributing to terrorist incidents, including geographical, temporal, and socioeconomic variables.
- Collaborated with team members to clean and preprocess raw data, ensuring data quality and consistency.

Single Page Responsive Website

- Designed and developed a responsive single-page website using HTML, CSS, and JavaScript.
- Implemented modern design principles to create an engaging and visually appealing user interface.
- Utilized CSS media queries to ensure compatibility across various devices and screen sizes.
- Integrated JavaScript functionality for interactive features such as navigation menus, image galleries, and contact forms.

CERTIFICATES

- Programming fundamental using python - Infosys
- Machine Learning with python - Coursera
- Data Visualization with python - Coursera
- Agile Scrum Foundation - Simplilearn

ACCOMPLISHMENTS

- 5 Star coder in **python language** on Hacker Rank
- 5 Star in **SQL** on Hacker Rank
- Finalist of **Amity Coding** challenge
